CAREER OBJECTIVE

Detail-oriented AI & DS graduate skilled in Linux Administration, Computer Networking, and MySQL, with hands-on experience in network configuration, troubleshooting, and system management. Proficient in TCP/IP, Routing & Switching, VLANs, DHCP, DNS, and Linux environments.

TECHNICAL SKILLS

- **Programming Languages:** Python, React (Basics), SQL.
- **Linux Administration:** Linux Administration, Shell Scripting, User & File Management, Process Monitoring & Troubleshooting
- **Networking:** CCNA, TCP/IP, Routing & Switching, VLAN, DHCP, DNS, ACL, SSH, Network Troubleshooting.
- **Development Tools & Platforms:** GitHub, Visual Studio Code, MySQL Workbench, Cisco Packet Tracer, Microsoft Excel.

SOFT SKILLS: Problem-solving, Communication, Team Collaboration, Time Management.

ACADEMIC QUALIFICATIONS

Bachelor of Technology in Artificial Intelligence and Data Science KGISL Institute of Technology, Coimbatore. (CGPA: 7.3)	Nov 2021 – May 2025
Higher Secondary (Class XII) Pioneer Mills Higher secondary school. (72.9%)	Jun 2020 – May 2021
Secondary School (Class X) Pioneer Mills Higher secondary school. (63%)	Jun 2018 – Mar 2019

INTERNSHIPS

- | | |
|--|----------------------------|
| VGM Soft Tech (Web Developer) | Jul 2023 – Aug 2023 |
| <ul style="list-style-type: none">• Developed a responsive e-commerce website using HTML, CSS, JavaScript, and React, featuring product listings, search, and shopping cart functionality.• Conducted functional testing, cross-browser testing, and debugging, reducing UI defects by 35% and improving overall user experience. | |
| Supernova AI (Sales Audit Agent) | Jun 2025 – Dec 2025 |
| <ul style="list-style-type: none">• Audited and analyzed sales records across multiple business units, identifying discrepancies and supporting corrective actions that improved reporting accuracy by 28%.• Applied data validation techniques and quality checks to ensure accurate financial reporting, reducing manual review efforts by 20%. | |
| BDreamz Global Solutions Pvt. Ltd. (Cloud Computing Intern) | Dec 2025 – Jun 2026 |
| <ul style="list-style-type: none">• Supported AWS and Azure cloud infrastructure by assisting with deployment, configuration, resource monitoring, troubleshooting, and maintenance of cloud-based applications.• Gained hands-on experience with Linux, Networking, Virtualization, Docker, Kubernetes, and DevOps tools, contributing to testing, debugging, code reviews, and project documentation. | |

PROJECTS

- **Job Application Tracking and Recruitment Management System Using MySQL**
Developed a MySQL-based system to manage job postings, applications, interviews, and recruitment records. Implemented SQL queries and stored procedures to improve data management.
- **Student Management System Using MySQL**
Designed and developed a Student Management System using MySQL to efficiently manage student information, course enrollment, attendance, and academic records, improving data organization and retrieval efficiency by 40%.
- **Cisco-Based College Network Infrastructure**
Designed and configured a Cisco-based college network infrastructure using Cisco Packet Tracer, implementing VLANs, inter-VLAN routing, and DHCP services to enhance network security, optimize connectivity, and ensure reliable communication across departments.
- **Enhancing Navigation for Railway Station Facilities and Locations**
Developed a railway station navigation system to assist users in locating facilities, platforms, and essential services efficiently, improving accessibility and reducing navigation time by 30% through an intuitive user interface and optimized location mapping.
